

# Network News

Women from Clondalkin are invited to join us on this important march, this coming Saturday, 29th Sept. Please contact Anne at 01-4670748 at the Network Offices if you would like to march with us.

## The Great Pink Walk is back!

On Friday, 19th October join us, Clondalkin Women's Network for a Celebration day, beginning with the Walk, followed by the refreshments in the Network office, including the launch of Clondalkin Feminist Charter, launch of LGBT Poster and a Fundraising Raffle. Details of times to follow...so keep the date free!

## Spot Prizes!

Can you donate some items for our fundraising raffle? We would be very grateful! Please contact us and we can collect or you can drop into the office.

## Save the date

Talk on Domestic Violence on **Monday, 12th November** in CWN Offices. More information to follow.

**MARCH For CHOICE**  
Saturday  
Sept. 29th @ 2pm  
The Spire, Dublin 1

We will be marching for choice from The Spire to Merrion Square this Saturday.

**IRISH ABORTION EXISTS - JUST NOT IN IRELAND!**

Between 4000 & 8000 Irish women travel abroad for abortion every year, and many more avail of illegal abortion drugs and unsafe abortion. That's a minimum of 12 women and girls every single day. They are often terrified and alone, stigmatised and judged. We believe the women who make this choice deserve to do so in their own country, where it is safer, they can be close to their families, and can access pre-care, aftercare and counselling.

70,000 pregnant people die around the world every single year from illegal abortion. They leave behind 220,000 kids since 61% of people seeking abortions are already parents. (World Health Organisation)

**JOIN US and march to protect women's health!**  
**JOIN US to fight for human rights!**

Restrictive abortion laws are not associated with lower abortion rates - American Psychology Association

The majority of women have no psychological after effects after abortion. In contrast, refused abortion often resulted in psychological distress for the mother and an impoverished environment for the ensuing offspring - American Psychology Association

Whether you can't afford to have a better option or you just want a better option
